PROFESSIONAL SUMMARY

B.Tech in Data Science graduate and Trainee Data Science & Data Analytics Engineer with hands-on experience in data cleaning, transformation, analysis, visualization and dashboard development. Skilled in Power BI, Excel, SQL, Python and Tableau, with practical experience working with large datasets and building interactive analytics solutions. Seeking a full-time Data Analyst / Junior Data Analyst opportunity.

TECHNICAL SKILLS

BI & Visualization: Power BI, Tableau, DAX, Interactive Dashboards, KPI Development, Drill-through
Data Analysis: Excel, Data Cleaning, Data Transformation, Data Modeling, Data Visualization, Statistics
Programming & Data: SQL, Python, Pandas, NumPy, Matplotlib, Jupyter Notebook
Databases & Tools: MySQL, MongoDB, R, Google Colab, VS Code, Git/GitHub, Google Cloud, MS Office

EXPERIENCE

Trainee Data Science & Data Analytics Engineer (Intern) | Cravita Technologies India Pvt. Ltd., Pune | Jul 2026 – Present

- Performed hands-on data analysis, cleaning, transformation, visualization and reporting using Excel, Power BI, Tableau, SQL and Python.
- Analyzed and prepared approximately 95,000–100,000 records, including duplicate removal, null handling, data-type correction, standardization, date-format correction, negative-value handling and removal of unnecessary data.
- Developed a Sales & Profit Analysis Dashboard using Excel, Power BI and DAX, covering sales, profit, orders, quantity, profit margin, category, state, source, product and order-status analysis.
- Applied SQL queries and Python with Pandas, NumPy and Matplotlib for data analysis and visualization tasks; created interactive dashboards using Power BI and Tableau.

Virtual Intern – Data Analysis | IIT Bombay | Jun 2025 – Oct 2025

- Worked on a practical data analysis project using Excel, Python, SQL and Power BI.
- Performed data cleaning and created visualizations to support analysis and interpretation of project data.

PROJECTS

IPL 2026 – Player & Team Performance Analytics | Excel, Power BI | Sep 2026

- Analyzed approximately 18,000–20,000 ball-by-ball records to build an end-to-end IPL 2026 performance analytics solution.
- Developed analysis for team wins/losses, player runs and wickets, strike rate, bowling economy, match-level performance, powerplay and death-over trends, toss and venue analysis.
- Created player and team comparisons and top-performer views in Power BI to present performance trends interactively.

Sales & Profit Analysis Dashboard | Excel, Power BI, DAX | Aug 2026

- Prepared and analyzed approximately 95,000–100,000 records in Excel before building an interactive Power BI dashboard.
- Built KPI and visual analysis for sales, profit, orders, quantity, profit margin, category, state, source, product and order status.

EDUCATION

B.Tech in Data Science | D.Y. Patil College of Engineering & Technology, Kolhapur | 2026 | First Class with Distinction
12th (HSC), Science | Maharashtra State Board | 2022 | 78.83%
10th (SSC) | CBSE | 2020 | 80.40%

CERTIFICATIONS

- NPTEL – Cloud Computing (Elite) | Apr 2026
- SkillCourse – Excel & Power BI | Aug 2026
- IBM SkillsBuild – Data Visualization & Communication | Aug 2026
